

Inserting iPad into enclosure

1 Carefully remove iPad components from carton.

2 Insert key provided into lock, rotate clockwise through 90° to unlock and remove lock from enclosure.

3 Slide and remove upper enclosure cover.

4 If using the iPad 2, 3 or 4 please insert the iPad into the silicon protective sleeve provided, to minimise movement within the enclosure.

5 Carefully place iPad into enclosure back section, ensuring that the home button is adjacent to the lock aperture.

6 Slide cover back into position and secure with lock.

iPad Vesa Display

1 Ensure bracket clamp and Vesa mount are assembled to the iPad enclosure.

2 Locate bracket clamp grooves into channel of 8-way post.

3 Adjust and tighten 4 screws at side of interface bracket until securely clamped to post in desired position.
