Assembly instructions

Align and slide female post over male post.

To attach the screen, align screw fixings with holes on rear of LCD screen.
Fix LCD bracket in place with screws provided.

Slide the LCD bracket into the channel. Move to the required position.

Once in position, tighten the bracket onto the linear post.

Screw the brass rail insert into the standoff.

Fit the standoff into the rail channel, turn clockwise to secure.

Unscrew and remove the standoff cap.

Align the drilled holes in the substrate over the standoff.

Refit the standoff cap to secure the substrate.

Attach base to male post using M10 bolt and allen key. Ensure clear washer is between base & post.
